iF | KlikDek Screwlock

For an outdoor like never before

Designed to take outdoor products to the next level

After years of delivering innovative, meaningful technologies that transform indoor environments for people to live, work and play, i4F is taking its experience and vision outdoors to transform outdoor spaces easily, and quickly. Our transformative technologies are designed to take outdoor products to the next level.

— Make your decking easy to install, for all

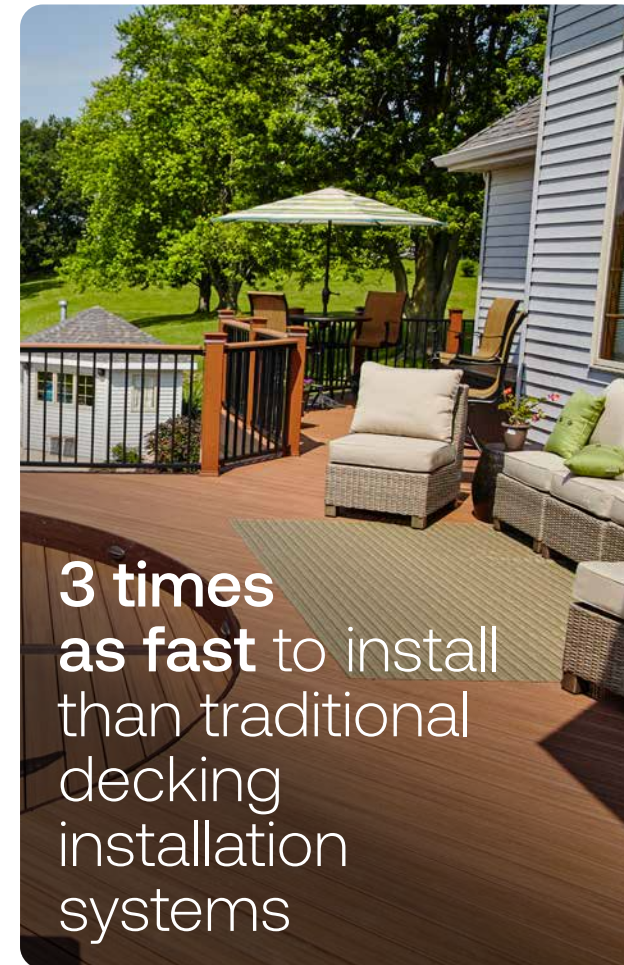

Smart-fixing decking technologies

Screwless installation that's 3 x faster than traditional decking installation systems.

i4F KlikDek® is i4F's smart-fixing decking technology, delivering easy installation that's 3 times as fast to install as traditional decking installation system. Our patented smart-fixing method has been acknowledged by the industry as the best system

available for several good reasons. Screwless installation with i4F KlikDek® is **highly flexible**, enabling access anytime, anywhere in seconds and an invisible profile means low maintenance, as the loss of items in between the panels is eliminated. This invisible profile also conceals the clips, adding to the decking's seamless aesthetics.
