

PATENTS & TECHNOLOGIES

## NEWS RELEASE

FOR IMMEDIATE RELEASE - THURSDAY, JUNE 10, 2021

### **i4F physically present with booth at Surfaces TISE 2021 in Las Vegas**

- ***Company exhibiting at Surfaces on Booth 3333***
- ***i4F management team available during event in person and virtually***

HAMONT, BELGIUM – i4F, a group of companies providing patents and technologies to the flooring industry, today announced that it will be physically exhibiting on **Booth 3333** at The International Surfaces Event (TISE) 2021 being held in Las Vegas, USA from June 16-18, 2021. This further reinforces the company's commitment to Surfaces following its participation in TISE's virtual event held earlier in 2021. i4F will showcase its newest offerings including digital printing, and iClick4U - the world's first water resistant one piece drop-lock for flooring. All the technologies on show at Surfaces 2021 are available immediately via an i4F license.

i4F innovations feature cutting-edge solutions in the areas of drop-lock technologies, digital printing, surface finishing - including technologies that imitate ceramic grouts, wall and ceiling installation systems, high demand, new materials and panel compositions as well as manufacturing processes.

i4F's management team will be available for the duration of the event to meet with manufacturers as well as distributors and retailers both in person on the booth and virtually.

John Rietveldt, i4F's CEO, comments, "Surfaces in Las Vegas is a turning point after a long period apart and we are delighted to be back! A new era is upon us and despite all the challenges, I am proud to say that we never stopped supporting TISE as well as all our licensees and partners. This time our booth is not only a showcase but also a celebration of the return to normal life and that means human contact and in-person business relations!"

#### **About i4F:**

*i4F® is an innovations group focused on the development of patents and technologies for the flooring industry. Its portfolio includes IP for flooring installation and wall mounting systems, material compositions, surface treatment, digital printing as well as laminate and board production technologies. I4F has strategic partnerships with the industry's most important IP players, including Classen, Kronospan, HMTX, Windmüller, CFL Flooring, Tarkett, Kingdom Flooring, Lico, Benchwick, QuickStyle Industries, Hymmen and Shaw Industries. The company's flagship technologies, 3L TripleLock® and Click4U®, provide a unique one piece drop-lock installation technique for flooring panels that eliminates the need for an additional insert on the short side. The solution is suitable for laminate, luxury vinyl tiles, expanded polymer core, solid polymer core and wooden flooring panels.*

*International patents and patent applications for i4F's technologies have been granted and filed in over 100 countries worldwide. Visit [i4F.com](http://i4F.com)*
