I4F exhibiting at Surfaces 2019 in Las Vegas

- *Latest patents and technologies being demonstrated on Booth Number 363*

WILLEMSTAD, CURAÇAO– I4F, a group of companies providing patents and technologies to the flooring industry, today announced that it is exhibiting on booth number 363 at The International Surface Event (TISE), being held January 23-25, 2019 at the Mandalay Bay Convention Centre in Las Vegas, USA. I4F’s entire management team is attending the show and will be available to meet with licensees and new prospects.

I4F’s booth at Surfaces will showcase its latest patents and technologies in the areas of locking, boards and wall panels, manufacturing processes, surface finishing as well as materials and panel composition.

John Rietveldt, I4F’s CEO, comments, “We constantly seek out innovations that are cutting-edge so our licensees get the best technologies out there! Our portfolio of patents, now comprising over 2,000 patents and technologies spanning multiple categories, continues to grow. I4F licensees have more options than ever before to pick and choose which patents, or groups of patents, best meet their most current business needs. The transparent composition of our license fees means our licensees get the best return on their investment while avoiding unnecessary payments for unused patents.”

About I4F:

I4F is an innovations group focused on the development of patents and technologies for the flooring industry. Its portfolio includes IP for flooring installation and wall mounting systems, material compositions, surface treatment as well as laminate and board production technologies. I4F has strategic partnerships with the industry’s most important IP players, including Classen, Kronospan, UWC and Kowon. The company’s flagship technologies, 3L TripleLock and Click4U, provide a unique one piece drop-lock installation technique for flooring panels that eliminates the need for an additional insert on the short side. The solution is suitable for laminate, luxury vinyl tiles, wood plastic composite, rigid core flooring, multi-layer flooring and wooden flooring panels. International patents and patent applications for I4F’s technologies have been granted and filed in over 100 countries worldwide.
