Technical specialist - Extrusion

Turnhout, Belgium

Calling R&D talents!

i4F is looking for a motivated technical specialist to support its day-to-day operations as well as to further optimize its R&D processes. We are looking for someone with an international spirit, a passion for R&D, and a strong desire to learn and grow in the industry. As a member of our team, you will have the opportunity to work with experienced professionals and gain valuable experience in a dynamic and fast-paced environment.

If you are a self-motivated and hands-on individual, then apply now.

About us

i4F is a global innovations group, focused on patents and technologies that are revolutionizing the flooring industry and beyond. Our vision is to enhance where people live, work and play with ingenious technologies from the floor upwards, through technological excellence, meaningful innovation, and human partnerships.

We believe that even the smallest innovations have the potential to transform not just products, but the lives of the people that use them. It's why we own and represent more than 3.000 patents and technologies. And it's why we continue to develop more, both independently and with our partners.

We work together with the world's leading producers and innovators to develop powerful, future-driven solutions for the flooring industry. Our patents are divided into six clusters: drop-lock, surface finishing, digital printing, board composition, wall and ceiling as well as sustainable process technologies. We're experts, specialists, dreamers, and do-ers. We're entrepreneurs at heart with a shared passion for meaningful innovations.

Our unique and highly successful business model requires high-potential people. i4F is the winner of multiple awards. The company has been awarded by Deloitte as one of the world's Best Managed Companies (BMC) for two consecutive years (2020/2021 & 2021/2022) and also won the 2020/2021 Excellence Award for Strategy. i4F has people and offices in Belgium, China, Vietnam, and the United States.
