

## NEWS RELEASE

FOR IMMEDIATE RELEASE - MONDAY, MARCH 18, 2019

### **I4F exhibiting on booth D30 in Hall N3 at DOMOTEXasia/CHINAFLOOR 2019**

- *Company presenting its 4-sided 3L TripleLock on herringbone and floor tiles*
- *Digital printing and 3D-wall installation system on show*

WILLEMSTAD, CURAÇAO– I4F, a group of companies providing patents and technologies to the flooring industry, today announced that it is exhibiting on booth number **D30 in Hall N3** at Domotexasia/CHINAFLOOR 2019 being held March 26-28, 2019 at the Shanghai New International Expo Center (SNIEC) in Shanghai, China. I4F's booth will demonstrate all the latest patents and technologies available via an I4F license. On show will be an easy and highly versatile 3D-wall panel installation system as well as new advancements in digital printing and four-sided locking.

Visitors to the booth will see I4F's flagship one-piece drop-lock technology, 3L TripleLock, now extended to lock down four sides, enabling the easy installation of herringbone and floor tiles in all materials. Also on show will be cutting-edge technologies, licensed by I4F, for digital printing on core boards and PVC films. I4F digital printing innovations enable manufacturers to create unique designs with superior optical quality while avoiding unnecessary inventory for pre-printed materials.

I4F's entire management team will be present at the exhibition and is available to meet with manufacturers as well as distributors and retailers.

John Rietveldt, I4F's CEO, comments, "We are excited to be again exhibiting at Domotexasia/CHINAFLOOR in Shanghai. There will be a high level of energy on our booth as we showcase technologically advanced intellectual property and innovations designed to help move the industry onwards and upwards. By meeting real business needs, our patent portfolios, divided into clusters covering locking, surface finishing, wall panels, materials and panel composition and manufacturing processes, provide manufacturers with top notch technology as well as returns in line with market changes and new product developments."

**About I4F:**

*I4F is an innovations group focused on the development of patents and technologies for the flooring industry. Its portfolio includes IP for flooring installation and wall mounting systems, material compositions, surface treatment as well as laminate and board production technologies. I4F has strategic partnerships with the industry's most important IP players, including Classen, Kronospan, UWC and Kowon. The company's flagship technologies, 3L TripleLock and Click4U, provide a unique one piece drop-lock installation technique for flooring panels that eliminates the need for an additional insert on the short side. The solution is suitable for laminate, luxury vinyl tiles, extended polymer core, solid polymer core and wooden flooring panels. International patents and patent applications for I4F's technologies have been granted and filed in over 100 countries worldwide.*
